FOR IMMEDIATE RELEASE

March 12, 2020

Recreation Programming and COVID-19

Hinsdale, IL –

The Village has begun receiving questions about the Recreation Department's response to COVID-19. Please be assured that we are staying current with the situation village-wide. The Village's web site will be continually updated at www.villageofhinsdale.org. We are in contact with the DuPage County Health Department and will report any changes to programming, events, and meetings as soon as they are available.

At this time, most recreational programming has not been cancelled. We are requesting that program participants who are sick not attend programs. We also encourage that the elderly or those with low or compromised immunity not attend our programs or events, per the Center for Disease Control and Prevention (CDC).

If you are uncomfortable participating in our programs during this time, please contact the Parks & Recreation Department. Email us at parkrec@villageofhinsdale.org or call 630-789-7090 for assistance with this issue.

Village-wide, our cleaning services are being extra vigilant with cleaning and disinfecting of our facilities. Staff is disinfecting touchpoints (door handles, staircase railings, elevator buttons, etc.) multiple times a day. Finally, hand sanitizers and wipes for public use are available at all Village facilities during any public programming.

We will continue to closely monitor information from the CDC and DuPage County Public Health Department and follow their guidance:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

<https://www.dupagehealth.org/590/Coronavirus-Disease-2019-COVID-19-Inform>

The Village's website also has additional information:
